(English Transcription mostly done, not proofed - as much as what I can do for now)

This is the 2nd Testimonials of people who went through the new FEU in Linz; 4 testimonials in this one;

10 more People have gone through the test;

Topic Index:

KS are here to do the tests and pilot us to space; First day of test was amazing results;

Soon we will remove the systems from the flight room - only the fields;

Systems are communicating with each other making sounds;

We may allow the Italians to make a party on the moon;

The fields of the reactors are getting much stronger - different ball game;

20% of people who go in flight system second day can't feel anything or travel - we're finding out why;

Man who was blind - has reactions in his eyes; Look through vision of FEU;

Giving reports to NASA - sooner or later have to collaborate;

Man could return to exact spot on moon instantaneously, could pickup rocks on moon.

Gave him a glass, he put moon sand in the glass, we could see his hand moving in glass but not the sand, moon sand is in energy state, they put the fields in the (Material EU) to see if they can materialize the moon sand returned back here on earth.

Man changed shape like gorilla, hairy arms

We know that he can take a glass with to the other side; Possible to go to Apollo site and pickup objects left on moon, fix NASA machines on Mars ;

In dream state you cannot take objects with;

By the 3rd chair the STM expands over the physicality

The systems have proven KF 100% correct - man can travel with soul

Promise of Mitra was correct - Soul and Physicality can work together

4 Video Testimonials:

Met the soul of Jesus - given water with love of Jesus

Lady met Mitra and she spoke, and a large group of beautiful women behind here

Detailed description of whole process, flying and having spiritual experience.

I am a man of the U, in the clothes of the man.

These systems are universal - but ?? others only go to specific places

Some controls needed otherwise you get lost in space

3 stages of chairs are for acclimating yourself for soul travel , and when you return you come back through the 3 chairs.

Some old KS are mature for space travel.

The wish to bring back the love of Christ

Mitra and Christ appeared by the second day of testing; more to come

The last testimonial is very detailed journey - very much a spiritual journey of letting go - take time to listen

We see everyone takes his own journey in this path of the U. I brought you a gift and it is for humanity to understand this gift. and use it for change, not only in human society but beyond. People of the U now look to humanity to guide them, as humanity has experienced the wrong way. You will teach them, that they never go wrong. Hopefully, hopefully my wish is the human race learns this, and not make the mistakes of the tribe of Moses.

Now that the man is given the chance to change, you understand the pain of killing, and destroying and you will change it that no one will kill in the U. It's a heavy responsibility. But as we see more and more, you've got to realize that the system absorbs all the emotions of those who come in it. The Encyclopedia of the human race starts

I hope we brought you some joys of what is to come for human race

I expect in the coming time you will see the soul of the Shah of Iran, we go back to Darius, we know his soul is awaiting. We'll see with the pleasure the soul of Mao Ze Tong. I have personally invited Mandela. We know what is to come. We go back to Gandhi lets' see how they see, and how ?? ?? of all nations will come through one or the other.

We invite the world leaders in the next few weeks, to make their way to Linz. We invite them in public, (1:34). as we did the ambassadorial meeting, we'll make world leaders meeting, they'll come in and open the path of peace. In the next few weeks invitation goes to his Excellency President Biden, and the same day we invite he Eminence Ayatollah K of Iran to be present in Linz

(:04).

K- Good morning to you ... WE are back in with .. passing on knowledge, and you KS adding on. A long time we shared knowledge ... 10 years of teaching solid, 20 years of spreading the knowledge, you have become the testers of the T. (:06). You are there now to .. pilot us to space. We are learning a lot. We have brought a lot of new understanding in the 2nd day of the tests. It have brought a lot of new insight. The first day we were trying to ?? parameters of the system. As I explained to you in the past ... We started with the single system ...

Draws the room and the systems ...

1 2 3 and you enter the system. (:08).

We are accessing how the environment without being in the system is creating conditions... This is the next step for us .. maybe in a short time we will remove the systems from the room. More or less the room becomes .. the system. This is now we are testing, we see it is doable. Because we see people still having effects and emotion inside. You have to remember, .. that these 2 system here are ... that Infinity Loop situation, which means they are now working with each other, trying to balance each other. This system is set for the location of the fields this way ...

(:10).

We start hearing noises, buzzing noise .. like we heard in China. ..

The interaction of the systems it's a physical noise. In China we could hear, as if they were talking to each other. Now we started the systems .. we came across beautiful understanding .. when I walk around I hear different noises in according to what happens in these places. SO we see how the whole system is structured , is working with each other. But there are other matters ...

We can test only 10 to 12 people a day .. (:12). it's not just half an hour in the systems. you stay in it until we see what develops. What happens, .. we ask them to change seats ..

You are in there for us to learn. to understand, to position people ..

On Monday and Wednesday ..

Italians are bringing their wine, pizzas guitars, they want to go to the moon and have a party. .. we don't know if we will let them have the party , but we'll see.

We have to bring

(:14).

On the first day test we saw different conditions, we heard gentlemen going to the moon, but just felt on his legs. This time because the fields are much, much stronger you have to realize, now we are dealing with at totally different ball game ..

These reactors don't exist outside KF. We have developed in a way ...

What is interesting on Friday's test, is amazing results. You got to understand, 20% of the people we see for the second day, 2 out of 10 don't feel anything, don't reach anywhere. We leave it, we are looking at how things are, and see what is the net step.

We are still following the gentleman who is blind, who came in the first day. He still goes through the FEU, what he tells us yesterday is that . He has been blind for 6 years ?? since he had a stroke, what .. is that for the first time he has got tears in his eyes, he sees through the vision of the soul, (:16). because we talk ?? in space development. He says, the dark is not as dark as it was before. The black is not a black anymore, it's grayish. and he feels blood in his eyes. We asked him to look through the vision of the flight system. We'll watch how he will develop. Would he be able to see with the vision of the soul.

...

We had some very interesting results on Friday. One of our .. more or less 6 or 7 people went to the moon and other places ..

This time we had a captain who had been to the moon, this time he can pick up a rock. We asked him to go back to the FS the same system where he locked in and he could go to the moon. ..

He didn't come to fly .. he flew . I reported this to the NASA scientists, (:18). because we have to sooner or later, we have to some ?? sort of ways collaboration. We asked him to go back into the FS to see if he can go back to the moon.

He went to the system and instantaneously he went back to the place he was, he could see things. We asked him to collect the stones for us, and put it on the side of the chair. We don't video inside, but we monitor. He went back in and started picking the stones, and dropping them off, but we couldn't see the stones. We realized there is a need for a completion of the system in this part, to convert.

Then we gave him a glass to take with him. He took the glass with him. He can take the glass, he knows where the glass is. With him we made 2 glasses, 1 with wine and 1 with whiskey in it. But this time we told him to forget about drinking, because when we gave him the glass, take the wine with him.

We asked him to put the stones in the cup and we watched him. He went in and he picked up the stones and he put them in the cup. Now we have to transfer this cup back into the material status system, which is ?? visual outside to see if we can convert, because the system has come back ?? to what we see, ?? anything left from the residue of the energy working, we can convert to matter. (They will try to convert the energy in the glass back into the matter state).

Then he moved into the other system, and we said, can you now see if you can go back to the moon. Instantaneously he can go to the moon, and he describes what he sees. You hear 6 minutes of interview, and again we saw him dropping the stones on the side.

We now have a systematic data, we know they can take the glass with him. So it is what we thought, possibilities. Now we can give people a hammer and a nail, (:20). and whatever and go to Apollo landing site, or find the moon Landers, and what doesn't work, and see if we can get them to repair it.

This was very important for us to see, if they can take it (the glass) with them. Because in a dream you cannot do. Somebody gives you, your mom gives you a cup of tea to take to the auntie, or grandmother you are in a dream with. So now we show this is a real situation.

In the past up to now, what we do is that, we have the STM and we encage it in the P of the man. Now what we done is very clear, We have managed to with 2, bring the P in, and encage it in the Soul. But we talk, we communicate very simply, with the physical side. Because when the come, it's like ?? they create, they remember a lot of things.

They tell you that, they see the expansion of the soul by the third seat. So what we have said for years, now physically is proven. The systems, the work of the KF is 100% correct. We can allow the man to travel with the soul.

You listen to them, one of them is 25 minutes we put it at the back end. We have a very interesting condition, so we are going to call this pilot back into the room, in the next couple of weeks, once we sorted out this section of the work of the .. conversion. Because we know they take the cup. We gave 2 cups, and both cups were carried. (:22).

So we have come to the point of what was the promise of Mitra, working of the soul and P together. You decide when to convert. We develop this more and more, and make it more accessible for us to understand.

The interesting part is, when we get to take material and then bring material back, how we handle it. I'll let you watch the video of this gentleman who went to the moon. We have another went to moon but he didn't want to land, he wanted to fly. We have a .. pilot who was very explicit, but he didn't want to go on the camera, that he could hold, he could pick up the sand of the moon, and play with it, it flowed through his fingers, like earth. None of them. You hear the gentleman, the pilot he tells you he converted to the time and the position, moon is slightly cooler. He tells you when he comes talking to me, he sees he is normal and in a physical D. When he goes to the moon, he sees a hand with a hair on it, it's like a gorilla or whatever, because it is cold. He converts this things, he hasn't seen the rest of it. Next step we would like him to carry a mirror and see people to see how they see themselves. If there is nobody with them. They see other souls.

So we have broken into the taboo of understanding, conversion of, and we are going to take this further on. Listen to this gentleman, I would like to have a translator before we start, ... (:24). German speaking ..

Video 1 Play the first video ..

Paul Funk .. (:26). it was a very interesting spiritual journey for me. ?? ??
there was a pressure on my head spiritual journey or so called experience first was not possible , he wasn't able to have any spiritual insights on the first chair. On the 2nd chair, it was much better, he could visualize pictures, (:28). in his consciousness awareness.

At first it was like he couldn't reach the goals, couldn't touch those pictures. He wanted to go to the moon, but the pictures were first in a bubble, he couldn't enter.

On the 3rd chair, and then suddenly the bubble disappeared there were rooms he could enter , opened up, and ?? channels too.

he was not walking but flying (:30). after he could enter those rooms. had no feet, but he was kind of flying, he was then on the moon. no gravity at all.

then it was much better and he even landed on the moon, he could walk there, stand there with his feet, touch , put his hand in the sand , and (pickup) a stone, and he could watch the sky and U. and see the planet earth.

(were not my human hands on 2nd chair these experience)

(:32). he looked at his hand and feet on the moon and they were full of hair, in German we say, "behard" like a hand and feet of a monkey (werewolf) .

He could switch his appearance and suddenly he switch from being a so called , appearing like a monkey, he switched to appearing like as a human again. He looked at himself and he was again human, his human body again. While still on the moon.

(:34). (I don't know if he is back on earth or still on moon) but he has a deep connection to water, to ocean and he talks about inner earth, that he touches inner earth. He could see a light similar to the sun, but it was silver, not golden, not the sun we can see on earth in our daily life.

(it was special experience .. return back to my chair .)

then he came back to chair 3 2 1. with every chair is was harder for him to make a spiritual journey. or experience .. ?? with every chair , (:36). he came back to this so called D or reality.

That was his experience.

K- now you understand when we spoke about chair 1 2 3 , we prepare you for a flight and then we what do you call it, decommission you back to P. We can't bring you out of the machine and let you go, because you'll still be in .. space level, in the D of the flight simulation, because this is the correct way to do it. We bring you back and we hear it, every one of them talk, as they go from seat 3 2 1 they come back to the D of P.

In a way, we have proven the way we setup, is the correct way. I have to tell you why I do this. ... On the other flights to the U, we use this system ?? I am a man of the U, in the

clothes of the man. These structures are not coincidental. We commission you to go to space, we commission you back. We commission to go to a specific place in the U, you can only go there because your body accepts it, In the future teachings .. programs I'll explain to you how. We ?? ?? commission system chair 3, the only won't fit to go to Mars, you cannot go to Jupiter you can't go anywhere else.

This is the beauty of this system. At the moment we give you a complex universal system. (:38). SO in a way, you can say only Chinese can go to America in this system so that's all it can do. This is part of the security program which is, we unravel to the governments for they want to have a control, in many ways, but many of us have to have. Otherwise you'll get lost in the space. It's not for the control government, but if you are not specified to go, you can end up in another U. How are we going to get you back.

This is why .. you pretest the conditions of where you are going to, how you are going to look. YOU do that here. .. in the Vertical systems. Now you understand why we built the V system, and this gentleman ... tell you again and again when they come back from 3 2 1 system, It's like when you go deep diving , you have to go through .. decompression detoxification from gases in your body. This time it is much easier within minutes they can do. A guy came in Barbu, he literally flew between the chairs. I was wondering why he is doing this for. He was so anxious to get into the flight system (FS), I never seen anybody (go so fast) By the time I came back in he was He didn't go through the full ??? Coming back was the same. That's why you take time.

We have a couple >>> ??? the husband went through a different journey. (:40). The amazing thing is except for 1 or 2 they were all , what we call old KF KS , mature in their 50s , 60s and 70s . We are not playing with children. These are the people who know exactly what is on ??? supporting the KF for here and ?? years. They are KS with a lot of credibility they understand everything which goes with the KF. They are not people who just came in yesterday.

I am not going to explain what happened to the 2nd person I want you to listen to it. This is gong to shock you, He is coming back in the beginning. .. you remember what I told you about this gentleman just now, I put him back in the system ,and the strangest thing straight away he could go to the moon, and go exactly where it is and collect sand or stone for us. We'll hear from him in the future for us, because we are going to call him in. He ?? ??? never loses that ??

Listen to this one .. be shocked in what is about to come.

Video 2 :

(Jesus gift in church ..) (:42).

?? unity I wanted to see Jesus, because he wanted to bring back his experience for you, Mr. Keshe.

(looked out the window)

It was rather dark and he saw mountains , far away on the top of one mountain there was a sparkling light like a star and light rays were there.

(glass of water given Jesus love in this glass) (:44).

He said, K gave him a glass of water and then asked Jesus (I don't know which realms that was ,) if I had a glass water in the ? ?? He then asked Jesus to give his love into the water. But he was not sure if it worked. He just asked for love.

it was a little disappointing for him because he wanted to bring much more energy of love, an amount of love back, but he couldn't. It was not as fulfilling as he wanted it ?? went into the unit to bring back as a gift, but it was not totally possible for him. but he tried. end

K- You got to realize these people go forward and come out of this, they are very emotional. (:46).

As I said before he wanted to reach a higher goal, he was disappointed he couldn't bring more love.

K- He is coming back on Monday. His wish was to bring back the love of Christ, he explained when he saw the light he knew it was the soul of Christ. .. he'll go back into the system

Now that we have a connection with him, it could be possible to see the .. soul of the Christ. We'll see how we can expand it. To what extent this will go. We'll bring back to you again ..

As I said, it's interesting again he was given in physical D a cup. We were not aware, (:48). he was looking for Christ he told us when he came out. And he carried a cup with water in it. cups were all empty. It was then ?? to fill it. It's interesting things will develop between P and the soul, the soul does all the talking , but the P accepts the cup. ?? comes from the soul.

These are the things we have said for a long time, and this is the reason for the ?? re-birth of Mitra. That's why she is among us. and the Creator the same time. One can look ?? ??

I would like you to listen to this one .. if she has recorded what she told us ..

We spent a little bit longer to go deeper. it's amazing how thirsty they just want water. .. to use a water, I understand why, it confirms that it is the D of the physical life. Water is the sign of life. It's .. the 3rd one brings a bigger shock, to me has brought a bigger D of the capability of the system and what is to come.

Video 3 played

Q: (:50). This is the wife of the man who was talking before previously she accompanied her husband ..

She can hardly talk because the experience that happened is still so deep.

(First chair didn't feel so much ..)

Together they entered the unit, first she didn't feel a lot ?? thoughts. she only recognized or felt her husband.

(the I went to the 2nd chair - I noticed the body was light thoughts let everything go .. (:52).

On the 2nd chair her physical body and thoughts got more lighter, light and bright.

Suddenly came the wish to go to the moon, she didn't have this wish when she entered the unit,

then she went to the 3rd chair.

Then she was very glad to make this journey to the moon, (:54). or to be invited to make this journey, she felt several regions in her body full of vibration. in physical body.

Suddenly she first she didn't feel a lot, then suddenly she felt that she wasn't on the moon, not at all, somewhere else, she cannot define it. but not on the moon. Instead of in a place she was in her feelings.

(translator got emotional ..)

Okay.. then grass appeared and a woman appeared and said, she was Mitra. (:56). Deep in her heart she really felt, that's the truth it's Mitra. She felt a deep inner grace and humbleness and tears of joy run out of her eyes .. then many, many, many women appeared behind Mitra, a lot of women appeared suddenly.

The whole atmosphere was light, joyful and even beautiful innocent. (:58).

then she was a question , do you want to stay or do you want to leave. She felt, yes I have to level soon, but first she wanted to know more about those women, she felt ?? ?? she felt sad about leaving. she wanted to stay and know more about those beautiful women there.

As her husband said before she came back on chair 3 2 1 with every chair the feeling got was less stronger. But she said, she can carry this beautiful feeling of being among those women . ?? from her own insight in her heart her whole life.

(1:00).

When she went outside the unit again, then she got aware that her deepest inner wish was to get the connection to her own higher "I", or self, that was possible.

She is deeply grateful for the whole KF and the work they do

K- Now you see the surprise, I sure many of you will bring us gifts from different structures. At the moment we are very involved with it, human side, what happens on this planet, what we see as part of.

In the coming time we'll see world leaders, we know some of the ?? always ?? to learn more about ?? ?? through their soul. They'll tell us where they are buried. They will tell

us what they did, and how they feel about ruling and being the leaders. (1:02). We will see a new D in understanding. . .we don't question, we are listeners, especially you listen to this as a recording. I stand in front of these people I know the soul inside and I know the soul in the system and brings me back a lot of joys. We know the changes will come, we'll see ?? ?? go through the system "" you'll bring us new gifts.

An average 4 or 5 out of 10 people ?? ??? but the emotion and what happened gets written we hold the folder on every emotion they write. It won't take long for Jesus to appear. Mitra didn't wait long waiting for a long time to appear. ??

We'll bring these people back, because they have a link, they have established a line to them, I am sure Mitra will tell us about her daughter. I am sure we'll come to understand the presence of Jesus and start asking questions, the first time is exactly ?? next time will come logical understanding because you become the messenger of what is, and what has been, then we can together bring some sanity to human race and understanding of what it has been through. (1:04). We will listen to the 4th video. and this is a very long one.

We try to cut if half somewhere, because it's a very emotional experience. This gentleman sitting in the system I asked him, would you like to fly somewhere? He said I didn't come to fly. I have come for spiritual experience. He tells you what he goes through ... they come to see .. he flies, but he doesn't want to land on the moon, because he didn't want /??? he try to understand . Then we finish for today. Monday we try to have session ..

It's interesting what is coming up, we have opened the channels of the STM and P working together to achieve things. the biggest thing for us is, in the near future once we start going through, and we bring people on repetition on next extension we'll give them a camera, see if they can record Christ. See if the lady can connect to Mitra, and ?? most beautiful being on the U. We'll see if we can capture those on man's D of matter state ?? camera. .. ??? (1:06). I know the answer but let's see what comes up , then I'll tell you why we see and sometimes we don't see.

Q: Gabriel I try in English words I can't find then in German

10th of June my first experience with EU. I had a good journey (1:0.8) I don't have any diseases or bad feelings ..

K ...

First Chair .. it starts in my head energy racing around my head moves back to shoulders, (1:10). then I feel coldness . then something happens and my nose opened , now it's still open ,, better than before.

Just let go and aware of my breath ...

I was not alone in this room .. 4 people I didn't know them .. in whole room all are new visitors ..

2nd chair is the STP I can't remember what my happened there. My feeling was the work was not so inside the body, but a little bit outside of the body. So the system works with me, the outside. Maybe it's with the aura of the body, or something like that, it's hard to describe. (1:12).

Then I moved to the 3rd Chair, and then it goes more outside, or more the connection to the above. I let it go, I do nothing, and I enjoy it. SO each step Mr. Keshe comes into the room and says, now you can share if you want. organized the positions of the men and the woman. I .. was alone in my EU. I get the electrodes or the hand-helds in my hand, and I am sitting there.

My wish was not I decide where I want to fly, my spirit guides and my Creator and my Soul can decide where I can fly, or I have to fly, to make some experience - I don't know. I just give it up to above. Now I am able to fly. "Let's go." Then nothing happens the first time. I wait, then my thinking is flying away.

Then the first idea came in, "okay try to lift it up." I imagine with my hand-helds, okay let's fly above. And I can feel it. (1:14). It was not physically. It was like a feeling. Okay, now I am flying. I am elevated (raised up), okay turn left, then right, then spin around. I tried each axis, okay, it's very easy to handle the ship. Now I can fly, what can I do.

Let's go to the moon, let's fly to the moon and see how it is. I imagine just fly to the moon. I fly to the moon, not on it, but nearby, just to have a look what is there. Looking there, okay I fly there. Now it is difficult to describe what I have seen because it was a shinny surface, and then I ?? look around, and there was a darker surface, maybe flat, maybe a ball, it's hard to describe. I have this feeling of the moon, it was a bit cold, coldness, okay this is the moon. It doesn't matter, let's go to another planet.

Or let's choose the opposite, let's choose the sun. So I try to go to the sun, let's go to the sun, and I fly to the sun. But it was just a small bright point. It was not a big sun, it was just a small point. Okay this is the sun. Now let's fly to Venus, or to Plaedes (1:16). I fly to Plaedes system. Then okay let's fly back to earth, let's see how it looks the earth. Is it round, or is it flat, how does it look. Because there so many different meanings (theories) about the shape of the earth. Then I see my picture, so it was not round it was like flat, and with a ?? cover with something under the flat. I see it, and it looks like this. It feels more like a truth for me as a ball, just for me.

Then I try to go back to here, I was landing in this room here. Then I let go and see what can be the next. Let's have a visit on my spiritual guide he is living north of Germany He showed me all the love and knowledge of Jesus Christ, he wrote it in his books. I want to visit him. I fly to his flat .. to give my gratitude and my love to him, (1:18). for all what he has given to me. I can give him a little back when I visit him, and to show him, hello .. I have something here, maybe you can see it, maybe not, it doesn't matter. We have a new T maybe you can share it with your clients, maybe you can spread it out

also, as multiplication. I say hello to his dog, I feel the love from him, I feel the love from myself, it was very good. Then I say good bye ...

I fly back to here ... I am here, I play a little with the spaceship .. I feel again how it feels, that's enough . I get out of the ship.

Mr. Keshe tells us each person can choose their own chair, 2 chairs in 1 EU, 2 in EU .. (1:20). .. The 3rd Chair of one unit. I am sitting there, I don't have the electrodes in my hands. my typical meditation position.

This was the beginning of a big, big emotion starting. This was a huge emotion start. It was inside, I was in my own intensive feeling. tears coming out. A mix of fear and love. it's hard to say, something wanted to come out, I let it go. (speaks in German ..) (1:22).

I want to fly with the love of God. This was at the end of this EU I have this wish, I fly through the love ... just the feeling.

3rd Chair. tears coming out, I want to fly through the love of God, then I feel it. Next step I move to my son, to the love my wife .. then I switch to my family, my mom, to my parents and sisters and brothers .. then I switch to the German community. I connected to German Soul, (1:24). because I know there are very many people without ?? soul. And I connected to the soul of Germany .. I feel the strength, (becomes too emotional to speak) I feel the strength and the wish coming up in my mind. Let's try to give to enhance the German Soul, what I can do, or maybe some inputs come inside .. for the people .. especially the German soul . this is now open.

Then I move to 2nd Chair. I feel more I am coming back.

Then I move to the 1st Chair and I feel more heaviness, I feel my body back feel a little heavier .. I say thank you for all these experiences. Thank you my body that he makes this possible. (1:26).

Then I go out and tell K ...
I invite everyone here to come and experience ..

Dean: Thank you for wonderful experience soul enhancing .. sharing it with humanity and German community ... (1:28).

K- .. We see everyone takes his own journey in this path of the U. I brought you a gift and it is for humanity to understand this gift. and use it for change, not only in human society but beyond. People of the U ?? now look at humanity to guide them as they have experienced the wrong way. That they will teach them that they never go wrong. Hopefully, hopefully my wish is the human race learns this, and not make the mistakes of the tribe of Moses.

Now that the man is given the chance to change, you understand the pain of killing, and destroying and you will change it that no one will kill in the U. It's a heavy responsibility. But as we see more and more, you've got to realize that the system absorbs all the emotions of those who come in it. The Encyclopedia of the human race starts. I have invited the French language nationals to come to Linz. You have the Italians we need those from other races, the Greeks, and the Norwegians, the ones from the UK, and those from the Arab nations, (1:30). to enter in, to increase. You will see these connections, the next generation of the people who come out, a week after ?? they bring us a more mature picture, because now they are added and they are using the soul of ?? (who has bee ??) .

It was a beautiful day yesterday, and I am sure Monday will be another one. We'll see the message of. We know the gentleman who has made the contact with Jesus, because he felt his presence ?? ?? see if we can develop it. Then maybe we can ?? call Jesus for you all to see the truth of his ???

Thank you we don't have anything, we just give you the truth and what it is, and what has been and the people explain what they see.

for being with us I hope we brought you some joys of what is to come for human race.

(1:32).

We keep these testimonials of the flight separate and compile it that way, give it 1 2 3 and then we'll see where we go, we are on number 2 today. If you want to give the next one .

I expect in the coming time you will see the soul of the Shah of Iran, we go back to Darius, we know his soul is awaiting. We'll see with the pleasure the soul of Mao Ze Tong. I have personally invited Mandela. We know what is to come. We go back to Gandhi lets' see how they see, and how ?? ?? of all nations will come through one or the other.

We invite the world leaders in the next few weeks, to make their way to Linz. We invite them in public, (1:34). as we did the ambassadorial meeting, we'll make world leaders meeting, they'll come in and open the path of peace. In the next few weeks invitation goes to his Excellency President Biden, and the same day we invite he Eminence Ayatollah K of Iran to be present in Linz.

We go through our way, and not through their ambassadors and through their governors and we shall see what we shall achieve in bringing peace.

I thank you for today ...
as you see the new cycle of the man.

END
